

Basic Home Repair & Maintenance

This course is designed to give students basic knowledge of common household repairs and maintenance. We will start with the basic tools necessary to make repairs in your home. The last class will be held at Lowes Building Center where we will look at the wide range of materials available for home repairs and maintenance. This class is very popular for both male and female homeowners who would like to make as many of their own repairs as possible.

Repairs:

- Furniture repair, refinishing and picture frames
- Wall repairs
- Fasteners
- Hand tools for a tool box

Basic Electrical:

- Basic electricity
- Circuits, fuses, breakers

Plumbing:

- Basic plumbing systems – water lines, drainage
- Faucets and toilets
- Water heaters and shut-offs

Course Duration: 9 hours Three **Wednesday evening** classes 6:00 pm to 9:00 pm

Dates: **October 4, 11, 18, 2017**
