## 2 STORAGE ROOM AND OPEN STORAGE AREAS

- 2.11 For projects and materials that do not fit into storage lockers or do not require a full month's locker rental, WCW offers "open storage" in designated storage areas for the convenience of our Members.
- 2.12 Open storage is limited to active projects only. Materials should be brought in only as needed and removed when not in use. **WCW is not a substitute for a personal or commercial storage facility.**
- 2.13 Open storage of projects and materials is allowed only in designated storage areas unless granted permission by WCW. Storage in the workshops, lumber rack, lounge, hallways, and parking lot is not permitted without permission from WCW staff.
- 2.14 All materials must be either boxed or securely bundled and labeled with Member's full name in chalk, on a piece of tape or with paper so that WCW staff can easily identify and/or move stored materials when necessary. Each bundle must have all elements securely wrapped and be sized no larger than can be easily moved by one person.
- 2.15 Storage Tags are required for all items stored at WCW and must be signed out to a Member by WCW staff. WCW reserves the right to establish monthly rental fees for stored items/materials.
- 2.16 Untagged materials and projects may be removed by WCW staff. After 3 months, untagged materials and projects shall be deemed abandoned and become the property of WCW.
- 2.17 All materials are subject to inspection and approval by WCW staff prior to storage. Member should consult WCW staff before starting a project to determine if it will be approved for storage.
- 2.18 Upon termination of membership, all stored materials must be promptly removed. Any materials remaining in storage more than 3 months after termination will be deemed abandoned and become the property of WCW.
- 2.19 WCW may limit the amount and duration of material storage in its sole discretion and, in the case of abuse or violation of WCW's storage policy, may require Member to remove some or all of his/her materials to maintain active membership.

**4 FINISHING**

- 4.11 All freshly finished items must be marked with Member’s name, a project description and the date and time of the finish application.
- 4.12 After 24 hours, WCW Staff may move the project to a storage. If a project is not marked with the date and time of the finish application, WCW may move the project at our discretion of adequate drying time.

**5 STORAGE OF FLAMMABLE MATERIALS**

- 5.11 No flammable materials and finishes (“Flammable Items”) may be stored anywhere at WCW other than in designated fire-proof cabinets. Violation of this rule is grounds for immediate revocation of storage privileges and/or membership.
